The particles are exposed from the surface of the developer carrying member in an area rate within a range from 15 to 60 % with respect to a surface area of the developer carrying member. This is found in all of claims 1-20, but not disclosed nor suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
